4911494	UK	50	SW DEVELOPER ENGINEER - C / C++	<p>ALTEN was set up in 1988 by three French engineering graduates. Today, the company supports some of the world's biggest companies with their R&D and information systems projects. As a European leader in technology consulting and engineering with 24000 engineers in 20 countries, ALTEN has stayed true to its origins in engineering, which now more than ever before holds the key to the major challenges of the future. ALTEN Ltd is currently involved in innovation development for the IT, automotive, aerospace, railway and energy industries with premium customers in the UK. ALTEN currently offers opportunities to high potential engineers to join their teams in order to answer the continuous demand of customers and tackle exciting challenges. At ALTEN Ltd you will get a motivating environment, freedom in your work situation and career together with co-workers in the same field. Personal qualities that we value are the ability to act professionally as a consultant and to understand the client's goals and values. These include; someone who is positive, able to create and maintain long lasting relationships with our customers, thrilled by problem solving and able to use creativity and hard work to find new solutions. Qualifications required You are qualified to M.Sc. or MEng in Computer Science or related technical field. During your studies and/or your previous experience (internship, apprenticeship...) you have gained knowledge of a minimum 1 year of practical experience. Languages: English B1- French is a plus As part of our development in the IT sector, we are currently looking for SW Development engineers with strong experience in C / C++. If you wish to be part of an exciting project based in London area, you must have the following skills: • A good knowledge of C and C++ languages • Comfortable using your relevant programming skills • Knowledge of JAVA, Unix as well as Oracle RDBMS and SQL is a plus Please feel free to send your CV to Jean Mathieu Schoun: jean-mathieu.schoun@alten.co.uk and cc eures@afolmet.it</p>	31/12/2019	Jean Mathieu Schoun: jean-mathieu.schoun@alten.co.uk and cc eures@afolmet.it
4911495	UK	50	NUCLEAR POWER PLANT LAYOUT ENGINEERS	<p>ALTEN was set up in 1988 by three French engineering graduates. Today, the company supports some of the world's biggest companies with their R&D and information systems projects. As a European leader in technology consulting and engineering with 24000 engineers in 20 countries, ALTEN has stayed true to its origins in engineering, which now more than ever before holds the key to the major challenges of the future. ALTEN Ltd is currently involved in innovation development for the nuclear, IT, automotive, aerospace, and railway industries with premium customers in the UK. ALTEN currently offers opportunities to high potential engineers to join their teams in order to answer the continuous demand of customers and tackle exciting challenges. Qualifications required You are qualified to M.Sc. or MEng in nuclear/energy or related technical field. During your studies and/or your previous experience (internship, apprenticeship...) you have gained knowledge of a minimum 2 year of practical experience. Languages: English B1- French is a plus At ALTEN Ltd you will get a motivating environment, freedom in your work situation and career together with co-workers in the same field. Personal qualities that we value are the ability to act professionally as a consultant and to understand the client's goals and values. These include; someone who is positive, able to create and maintain long lasting relationships with our customers, thrilled by problem solving and able to use creativity and hard work to find new solutions. Activities As part of our development in the nuclear sector, we are currently looking for Plant layout engineers as well as civil and layout CAD designers If you wish to be part of an exciting project based in Bristol area, your responsibilities would include: General layout engineering: Analysing and verifying technical consistency of the inputs regarding building layout (Process & Instrumentation Diagrams, equipment data, cable list, electrical load list, etc.). Carrying out layout engineering and making proposals to improve the layout. Lays out the various mechanical and electrical equipment. Design the pipes, HVAC ducts and electrical cable trays in the 3D model. Carries out an initial check of the consistency between the process & instrumentation diagrams and the 3D model. Drafting technical reports (progress reports, equipment introduction note, change impact analysis, design procedures, etc.). Issuing the layout drawings to the various teams and coordinating their layout activities by ensuring compliance with the layout rules. Civil and layout CAD design • Creating and modifying of the PDMS 3D-Model, by modelling: • components and equipments, civil structure, steelwork, pipe lines, HVAC ducts and components, Electrical cable trays, boxes and cabinets according to the input data and drawings provided and ensuring that the tractability is maintained throughout the model. • Carrying out layout engineering (positioning of equipment, pipe routings etc.), ensuring that the Layout Rules are correctly followed • When requests for changes are issued by the various engineering teams, he/she incorporates the changes into the 3D model, having checked their technical consistency. •In the event of any technical problems or deviations, informs the Building Layout/Civil Leader, offers technical advice and makes corrections to the 3D model. Produces 2D drawings associated with layout engineering (general layout drawing division into fire safety zones, etc.). • Performing of 2D-3D-Checks (3D-Model check against P&ID, Single line diagrams etc.) • Performing component introduction, installation or maintenance simulations; preparing layout studies. Please feel free to send your CV to Jean Mathieu Schoun: jean-mathieu.schoun@alten.co.uk and cc eures@afolmet.it</p>	31/12/2019	Jean Mathieu Schoun: jean-mathieu.schoun@alten.co.uk and cc eures@afolmet.it

EURES Milano Rif. 49/2018	Sophia-Antipolis - Francia	30	DATA SCIENTISTS	The role of the data scientist is to participate in the identification, implementation and growth of the it solutions. The data scientist is part analyst, part artist: comfortable working as a software engineer and a quantitative researcher; the Data Scientist is capable of staring at data and spotting trends, wanting to learn and bring change to an organization. The data scientist explores and examines data from multiple disparate sources and sifts through all incoming data with the goal of discovering a previously hidden insight, which in turn can provide a competitive advantage or address a pressing business problem. The data scientist does not simply collect and report on data, but also looks at it from many angles, determines what it means, then recommends ways to apply the data. The data scientist is inquisitive: exploring, asking questions, doing 'what if' analyses, questioning existing assumptions and processes. Armed with data and analytical results, the data scientist then communicates informed conclusions and recommendations across an organization's leadership structure. Skills - Understand the business of the customer and understand the main performance indicators that can be leveraged to improve activity or decrease costs - Work closely with customer facing teams and the customers to identify and answer relevant clients questions using appropriate statistical techniques on available data. - Drive the collection of new data, both internal and external, and ensure its accuracy. Drive the refinement of existing data sources. - Communicate findings to all relevant internal and external contributors in a way that is accessible to each audience. Experience with Python, R, Matlab, Scala with scoobi, Hadoop/Impala, tableau or equivalent, Unix is a plus Please send your CV in English to: cristiana.chepsta@alten.com and cc eures@afolmet.it	31/12/2019	cristiana.chepsta@alten.com and cc eures@afolmet.it

RIFERIMENTO	PAESE	N POSTI	MANSIONE	JOB DESCRIPTION	SCADENZA	CONTATTI
"Eures Italy – TO/CS"	Svezia	5	Tappeziere Svezia "Eures Italy – TO/CS"	<p>In 1963, Myrins Interiör&Textil was established. The company started as a recycling company in the 60s. Later, we developed to direct sales where we sew custom-made products for our customers, both private and for companies such as hotels, restaurants, offices etc. The first shop opened in Sävenäs, on the Swedish West coast. The head office and production are, since 2014, situated in Kungsbacka, a town close to Gothenburg. We are a family owned company and it is the second and third generation working in the company today. Our employees are important to us. The work is hard and the machines we are using are industrial textile sewing machines. We produce curtains for offices, hotels and private homes. We're upholster furniture; manufacture customized sofas for public environments. We have all types of sewing and upholstery. The demand for sewing is high in Sweden and we are looking for an employee who have the experience and knowledge of profitable sewing. We are looking for someone who have the skills of using industrial sewing machines. You are welcome to have a look at our video on YouTube to get a grasp on how the machines look like and where we work on daily bases. https://youtu.be/u2Kbr-6TXLo</p> <p>Required experience</p> <p>We are looking for someone with at least 3 years of experience in the field or if you have well documented similar experience within flight industry or vehicle industry, or making curtains, we would be happy to receive your application as well.</p> <p>In order to find the right person for the job we are willing to invite you for a try out in our company before starting the job. If everything goes well and you are interested in the job, we will offer you a permanent position. Depending on experience, the salary will start from 2000 Euro/month. If you have more experience, we are willing to negotiate about higher salary.</p> <p>Cooperation with Eures We cooperate with Eures Sweden for this position. Therefore, we encourage you to apply for Your First Eures Job and Reactivate when the interview takes place in Sweden. Please e-mail your CV and application letter with reference "Eures Italy – TO/CS" to following e-mail address: viktor.ay@arbetsformedlingen.se and cc serafino.perri@provincia.cs.it</p>	30/06/2019	viktor.ay@arbetsformedlingen.se and cc serafino.perri@provincia.cs.it
EURES Svezia	Gothenburg	2	Experienced	Experienced Embedded Developer to Agile Team	30/06/2019	eures@afolmet.it

Rif. 33359	- Svezia		Embedded Developer to Agile Team rif. 33359	<p>We are now looking for new innovative team members with experience in embedded systems that want to take part in our exciting projects. If you want to work with the latest technologies in an agile team together with inspiring colleagues - then you should join us!</p> <p>About the Position Our technical skills are not limited to develop software, we also take care of release work and the complete continuous integration tool chain. Our team meets regularly both to share information and skills but also to have some fun on the way. We are used to work in an agile environment with methods such as Scrum or SAFe. For this position you need to have at least two years' experience as developer within C/C++ in embedded systems, as well as Linux or an equivalent RTOS. We are confident that you have a bachelor's degree in Data Science, or similar. It is demanded that you understand the importance of documentation, accurate requirements management and a great collaboration within the team. We would like to know more about your experience from working in agile environments and how you would utilize your competence and share knowledge within a new company. Our main customers are from the automotive industry, Ericsson and other industries. Since it is an exciting time within software development we are currently examining how we as embedded software designers can co-work with colleagues within AR/VR, Cloud services and IoT. This can lead to new exciting opportunities that we hope you want to be part of!</p> <p>More About Cybercom At Cybercom we are Makers of Tomorrow. By learning through experience, we know what really matters and we apply our skills and creative use of technology to every client and situation to create truly unique solutions for the future. Our areas of expertise lie within Digitalization, IoT, Cloud and Secure - where do you find yourself in the future? Be a part of something great What makes working at Cybercom unique is the workplace culture. We are truly passionate about what we do, our clients trust us to be their partners in finding their way in the landscape of digitization. We are proud of being a truly diverse workplace - our employees represents over 40 countries and we strive to bring more women in the tech-world. Meritocracy rules at Cybercom - we want to hire people who loves their job and who want to work at their best of their abilities. Your gender, religion, national origin, sexual orientation, age, disability, or ethnicity does not matter to us in any other way than that "more is more". Diversity enriches us and makes us perform better. As a consultant you must love the concept of "constant change". Due to the nature of consulting you will most likely be working with many clients, technologies and problems. You will experiencing that you will be challenged on a consistent basis.</p> <p>Application send CV in english to eures@afolmet.it</p>		
EURES Svezia Rif. 45568	Gothenburg - Svezia	2	Continuous Integration Developer to our Software Integration Team Rif. 45568	<p>Continuous Integration Developer to our Software Integration Team In this role you need to feel comfortable having responsibility for implementing improvements and independently planning, since the work is executed through separate and well-planned tasks, both in design and implementation. It is therefore favorable if your background covers several development projects with focus on creating systems for continuous integration and/or continuous deployment. The work you provide enables an automatic build, deployment and visualization of test results for developers, integrators and delivery managers. Hence, the system provided must be quick and reliable but also intuitive. It is important to have an ability to quickly adapt to existing toolchains and work with improving these. As we have a great range of customers demanding our skills it gives a good opportunity for you to choose customers and technology areas. This in turn contributes to great development possibilities. Your team & development We have a great mix of junior and senior competences in our team and our expertise extends from CI/CD and firmware specialists to test leaders and agile product owners. It is important for us to have fun both at work and outside. For instance, we regularly meet up for co-working, lunch-seminars and workshops in specific technical areas. This is a great opportunity to share competence and experiences with each other. One recent example of a focus area within the team is the automotive industry with self-driving cars and active safety. We invest in automotive areas by widening our competence within CI/CD, test management, Autosar as well as Matlab/Simulink. Cybercom believe that every colleague, regardless of seniority, should keep developing and exceeding in their field. Our goal is that you acquire and maintain the right skills to achieve your full professional potential. We want you to be at the forefront of your chosen area within our industry - leading the development within continuous integration. For this position we are confident that you have:</p> <ul style="list-style-type: none"> • Programming experience in scripting like Python, Perl, Shell and most likely experience from C/C++ • Experience from different automation tools such as; Jenkins and GoCd • Experience from source management tools like Git • Knowledge of containerization like Docker and knowledge of deployment with tools like Kubernetes • Experience from working in Agile development projects • Excellent communication skills in English (Swedish is Meritorious) 	30/06/2019	eures@afolmet.it

EURES Svezia Ref. SW09/2018	Svezia	1	Senior Advisor Regulatory Affairs Ref. SW09/2018	<p>Senior Advisor Regulatory Affairs</p> <p>SDS works with drug development in the pre-approval phase (from the nonclinical phase to phase III). Our clients have a mix of NCE projects and projects with development of new formulations and/or new areas of use for established drug substances. In addition to regulatory experts, SDS has senior experts in a range of disciplines including CMC, DMPK, Toxicology, Clinical Pharmacology, Clinical Development and Biostatistics. Many clients use several disciplines from SDS which means that there is often an opportunity to work in teams with SDS colleagues. Even if you are the only consultant from SDS working with a particular client, you always have the possibility to use SDS colleagues as sounding boards. A Senior Advisor Regulatory Affairs at SDS helps our clients to define the overall regulatory strategy for their drug development projects from early phase (nonclinical) to MAA. This includes determining the product's classification (regulatory framework), legal basis and choice of procedure as well as leading interactions with regulatory authorities at national level (major countries across Europe), EMA and FDA as well as applications for ODD and PIP. Other tasks include leading responses to authority questions in connection with CTAs/INDs, writing drug development plans</p>	30/06/2019	eures@afolmet.it

				<p>(in cooperation with other disciplines as needed), looking into suitable reference products, MAA dossier planning etc. There are today four Senior Regulatory Advisors in SDS and we often discuss complex project among us and divide projects/tasks according to experience and competence. This means that there will be flexibility with regards to which projects are allocated to whom depending on background and experience.</p> <p>Profile</p> <ul style="list-style-type: none"> • University degree in Science • Preferably at least 5 years' experience within Regulatory Affairs • Experience from Drug Development • Excellent communication skills (orally and in writing) in English • Strong project management skills • A collaborative mindset <p>Apply by sending your application in English to eures@afolmet.it</p>

SPAGNA

RIFERIMENTO	PAESE	N POSTI	MANSIONE	JOB DESCRIPTION	SCADENZA	CONTATTI
EURES Milan	MAIORCA - Spagna	20	Children Entertainer, Hotels VIVA Mallorca 2019.	<p>Hotels VIVA needs entertainers for our hotels in Mallorca ! Would you like to spend the summer in sunny Spain in an international team of hotel entertainers, getting paid to make people happy? Come and join us and be part of the VIVA Family!! The job is to entertain and activate the youngest guests in your VIVA Hotel by organizing games, sports and other activities for them, like; face painting, treasure hunt, creative hour, Pirate Sports, Medal Games, making balloon animals, dancing the Pirate Mini Disco, performing in children's shows, etc. It's a very rewarding job but it's also quite demanding. Even though you will have a lot of fun and learn a lot, the days are sometimes very warm and the working days are long. The Entertainer: To be a good VIVA children entertainer you have to: 1. Be positive, flexible, energetic, enthusiastic & team spirit and love being around children. 2. Be experienced in working with/being around children. Professional training/work experience is a must. 3. Speak at least two languages, English is required. The more languages you speak, the better. 4. Understand the meaning of quality & service 5. Willing to relocate during the summer season 6. Need to be available from March till November The Conditions: -1519,08 €/month, BRUTO -Free accommodation; you will be provided a staff room in/or close by the hotel complex which you might have to share with a team member, of the same sex. -Free food and beverage; breakfast, lunch and dinner in the hotel, plus a set amount of free soft drinks throughout the day. - No travel costs; the cost of your tickets to fly to Mallorca and back will be paid to you before you fly home (up till 400€), under the condition that you fulfill the contract period. -A standard European employment contract, with work insurance included. -Free entertainment training course; before the season starts you will attend a training course in Mallorca, with free food, beverage and accommodation. You will not get paid during the course, but you will also not have to pay for the training you receive. The Company:</p>	15/01/2019	mbreevaart@hotelsviva.com and cc eures@afolmet.it

				<p>VIVA Hotels & Resorts is a Spanish hotel chain based in the Balearic Islands. We have 4 Family Hotels, 2 Adults Only Hotels and 1 Rural Hotel, exclusively in the **** category.</p> <p>The company has made a name for itself by providing very high quality to our guests. This includes the hotel entertainment.</p> <p>The Application: Send your application letter with CV (both in English) and a full size picture of yourself before the 15th of January 2019 to Martin Breevaart e mail mbreevaart@hotelsviva.com and cc eures@afolmet.it. If you are successful in this first stage you will be invited to the second stage, which is one of our interviews in a city nearby you in the month of January-February 2019 or a SKYPE meeting.</p>
